SUPPLEMENTARY INFORMATION:

I. Abstract

Any flotation device attached to handline or harpoon gear used to fish for Atlantic highly migratory species (tunas, swordfish, sharks) must be marked with the permit number of the vessel from which it is used. Regulations for these fisheries prohibit at-sea transfer of catch. This requirement is necessary to identify catch that is buoyed for later pickup.

II. Method of Collection

There is no form used under this requirement. Permit numbers are issued to vessel operators (under a separate information collection) and the permit number is marked on flotation gear. The

requirement is contained at 50 CFR 285.33.

III. Data

OMB Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals, Business and other for-profit organizations (respondents are operators of vessels in the Atlantic tunas, swordfish and shark fisheries who fish with handgear).

Estimated Number of Respondents: 1,600.

Estimated Time Per Response: 15 minutes per float (it is assumed that each vessel would have a maximum of five floats).

Estimated Total Annual Burden Hours: 2,000.

Estimated Total Annual Cost to Public: \$24,000 (for materials).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: June 1, 1998.
